

DACKS

sporting hub

Connected sport. Supported people.

One platform for schools, colleges, clubs and academies.

What DACKS does

- Schedules & fixtures - one weekly plan, published only to the right players.
- Wellbeing & availability - daily check-ins, injury reporting and physio-led return to play.
- Performance - S&C programmes, gym logging, game stats and leaderboards.
- Communication - team messages and digital team announcements.

Two portals, kept separate

Players see a simple daily view. Staff tools follow each person's assigned role: coach, S&C, physio, welfare or admin. Staff never see player-only actions by default.

Safeguarding built in

- Private 'Report a concern' for players and staff, with urgent concerns flagged.
- Instant alerts to the club's authorised welfare staff and admins.
- Private notes and progress tracking; reporters see progress, not the lead's notes.
- Each club's records are kept separate, with access based on membership and role.
- Supports your safeguarding policy and designated lead - never replaces them.

Getting started in three steps

1. Book a demo - we walk your head of sport through DACKS.
2. We set up your private club space, staff roles and squads.
3. Players and staff sign in on their phones and add DACKS to the home screen.

In use today

Leicester Tigers ACE Programme at Coventry College.
